AUSTRIANS PENETRATE ITALIAN LINE ON A FIFTEEN-MILE FRONT

London Advances Are That Enemy Reaches Second Line to a Depth of Three Miles

PUT BRIDGES ACROSS PIAVE

Austrians Lay Down Fourteen But Italians Have Sufficient Reserves to Check Them

STATEMENT FROM THE FRONT

Situation is Most Encouraging and Only Successes Have Been Along the Piave River

(By United Press.)

London, June 18.—The Austrians have reached the Italian second line to the depth of three miles on the fifteen-mile front, it was learned today.

London, June 18.—The Austrians have thrown 14 bridges across the Piave river, but sufficient reserves are massed opposite them to check the enemy, according to a statement from the Italian front today.

"The situation is most encouraging," the statement said. "To date the only enemy success has been on the Piave. Here bridges are being subjected to heavy artillery fire. The reserves here are sufficient to check the enemy."

More American Dead

Washington, June 18.—Ambushed by a German force over three times their strength, 13 American troops on a patrol adventure the night of June 13, battled their way through the enemy and returned safely General Pershing cabled the war department today.

The fierceness of the fighting is indicated by the fact that every one of the Americans was wounded.

Checked at All Points

Rome, June 18.—Although Austria has thrown her entire effective military strength into the Italian drive, her troops are checked at all points, a statement issued by the Italian high command at midnight stated. Bloody defeats have been inflicted on the enemy at two places on the Piave, while a successful counter offensive was started by the Italians on the lower Piave, the statement said.

Exhausted by counter attacks in the north, the Austrians have failed to renew their infantry assault in the mountain region and in the important Montello sector.

Of Austria's total of 92 divisions, 71 have already been identified on the Italian front. So far as quality is concerned these constitute the whole of the enemy's really effective troops. They have at least 7,500 guns and its entire force of airplanes are in use. Their gains have been exceedingly slight compared with the objectives assigned to them.

From captured documents, it was learned that before the offensive the troops were promised plunder and booty.

49 On Casualty List

Washington, June 18.—The War department today announced the casualty list including 49 names, divided as follows: ten killed in action, 10 dead from wounds, two from disease, one from disease, thirty-one wounded.

103 Marine Casualties

Washington, June 18.—Evidence of the sharp fighting by the marines at Chateau-Thierry was seen today in a casualty list issued by the Marine corps headquarters, showing 103 more marine losses.

Of these 45 were killed in action, 27 died from wounds and 31 were severely wounded.

ANNIHILATION PREFERABLE

Better Than Dishonorable Peace, Italian Premier Declares

Rome, June 18.—"Annihilation of the Italian people is preferable to a dishonorable peace," Premier Orlando declared in addressing the chamber of Deputies.

"The government will neglect no opportunity of concluding a just and honorable peace, but not a single possibility of peace has ever yet shown itself."

MRS. FRANK MOZINGO IS FINED FOR ASSAULT

Pleads Guilty and Pays \$1 and Costs When Arrested for Attacking Mrs. Mae Boyer

SOME DOMESTIC DIFFICULTIES

Mrs. Frank Mozingo was fined one dollar and costs in the Mayor's court yesterday afternoon for assault and battery on Mrs. Mae Boyer. She paid the fine.

The quarrel between the two women which occurred Sunday afternoon, was the result of domestic troubles between the two families. Because of alleged intimate relations between Mrs. Boyer and Frank Mozingo, Mr. Boyer filed suit for divorce some time ago, but later withdrew his suit. A similar suit filed against Frank Mozingo by his wife more recently, however, is pending. Sunday afternoon the two women met in the vicinity of the Trennepohl coal yard where Mr. Mozingo was employed unloading coal and according to the plaintiff, Mrs. Mozingo beat her with a club and after that was taken away from her, slapped Mrs. Boyer violently in the face several times. Following the payment of the fine, Mayor Irvin dismissed the case.

MISS JESSIE PEARCE CALLED TO CAMP LEE

Rushville Girl Leaves For Petersburg, Va., to Await Orders to Sail For France

WILL BE RED CROSS NURSE

Miss Jessie Pearce, daughter of Mrs. Florence Pearce of West Fourth street, who recently completed her training course at the Robert Long Hospital in Indianapolis, has gone to Camp Lee at Petersburg, Va., to await embarkation orders.

Miss Pearce volunteered her services as a Red Cross nurse for overseas work some time ago and upon her graduation from the nurses' school a short time ago was notified that she had been accepted and would be among the first of the Indiana nurses to be sent over for duty in the soldiers hospitals. Miss Pearce expects to be assigned for the present, at least, to a surgical hospital in England. Three other former Rush county nurses are in the overseas service—Miss Hazel Bennett and Miss Ruth Dillon, who are attached to the Lilly Base hospital, are in France, and Miss Annabelle Rosier, formerly visiting nurse here, is in England.

CHARGES LIQUOR MEN

Washington, June 18.—Charges that liquor interests were disloyal and was responsible for much of the German propaganda in this country, were today made by Wayne B. Wheeler.

AN AIR RAID

(By a Spectator)

(Editor's Note:—The following description of an air raid on Paris by German machines was written by a former Rushville man, who experienced four of them. It reads like fiction, but it's grim reality.)

Falleurton and I had just returned from the opera. We had been there not so much to see Faust as to have a look at the most wonderful opera house in the world. We were not disappointed in its grandeur, but not understanding French, left early.

Outside of a full moon and an occasional heavily shaded lamp at the principal street crossings, Paris was dark. There were many taxicabs on the streets, but few people on foot. The cafes were closed.

Walking toward our hotel on Rue Opera, we noticed at one of the Metro entrances a word covered by a green glass shield. It spelled REFUGE. "I hope we get a good night's sleep," remarked Falleurton. "Here too," I answered. The sign had made us both think.

We were tired and on reaching the hotel parted with the understanding that if a raid occurred, we would meet at our favorite bench on the Louvre.

I had just fallen into a doze

when I was troubled by a strange sound. At first it seemed far off, and half asleep, I had it confused with the music from Faust; then as the sound rose into a hideous shriek, I came wide awake. The siren in the still night is like the cry of a wild animal. Starting low, it swells into a roar, and rising, ends in a scream. It conveys fear, hate, defiance.

I had pulled back the light-proof curtains before going to bed, and now in order to hear better, I did not close them. In a night raid the ear is keener than the eye. So I was compelled to dress in comparative darkness, and in mad haste my clothes went on askew. My hair by this time had settled enough to receive my hat. I clapped it on and was off. In the hall I bumped into the Swiss night-clerk, who was running about wild-eyed, rapping of doors and crying, "The Avion. The Avion."

On the street, taxies were racing about getting their late fares to cover; also many women, some carrying babies and heading their little frogs toward buildings with cellars and into Metro entrances.

Walking rapidly two squares

SAY AMERICANS SUNK A GERMAN SUBMARINE

Passengers Aboard Cuban Liner Declare Officers of U. S. U-boat Told of Sinking

ENEMY IS HIT WITH TORPEDO

(By United Press.)

New York, June 18.—A German submarine was sunk by an American submarine off the Virginia coast last Friday morning, according to a story told here today by persons arriving on a steamer from Cuba. They asserted that the details were obtained from officers of the American submarine who exchanged greetings with officers of the liner not far from New York, while the United States submarine was taking supplies from another ship. According to the statement, Friday morning the Americans saw a big German U-boat with two deck guns. Evidently the Germans did not spot the American submarine, which submerged and fired a torpedo. A great concussion resulted and the American U-boat emerging, could see nothing of the German but oil and wreckage which were observed on the water.

No Confirmation

Washington, June 18.—The navy department declared today it has no confirmation of the story brought in by passengers aboard a Cuban liner that an American submarine had sunk a German submarine.

REFUSES TO ACCEPT RULING

Western Union Head Says There is no Danger of a Strike

New York, June 18.—President Newcom Karlton of the Western Union Telegraph company in a letter to President Wilson made public today declined to accept the ruling of the war labor board in the dispute between the company and the commercial telegraphers union of America as requested by the president unless forced to do so by the war government. He said the decision of the war labor board was not unanimous. He declared there is no danger of a telegraphers strike and that the company feels it would not be doing justice to the public if it permitted an outside union to interfere with its work.

FLAMES RUIN HOME OF WELL KNOWN LAWYER

Residence of A. L. Gary Almost Entirely Demolished by Fire This Afternoon

FROM BAD WIRING SYSTEM

The home of A. L. Gary, 913 North Harrison street was almost entirely demolished by fire this afternoon shortly before three o'clock.

Although the origin of the flames could not be learned definitely, they are believed to have started from a flaw in the electric lighting system, wires being laid in that part of the house where the fire originated. Although Mrs. Gary was at home when the fire broke out, she was unaware that her home was afire until a passerby, hearing the sound of burning timber, noticed the flames on the roof of the house.

The flames had spread through all of the attic at this time and were sweeping over the roof, and when the department arrived, had gone down the rear part of the house. Several pieces of the home furnishings were taken from the house. Those which remained there, however, were either destroyed by the fire or ruined by the water. It was believed that the front portion of the first story would be saved as the firemen were fighting the flames back from that section, most effectively.

IMPOSSIBLE FOR HUN TO WIN

Can't Wear Down Allied Reserves Due to American Co-operation

(By United Press.)

London, June 18.—Chancellor Bonar Law introducing a vote of credit for \$2,500,000,000 in the house of commons this afternoon, declared that the government's daily expenditure is \$34,240,000.

The chapeleur read extracts from the minutes of the supreme allied war council, in which it was stated that due to the prompt co-operation of America, it is impossible for the enemy to win by wearing down the allied reserves before exhaustion of its own.

Mrs. Everett Wright who underwent an operation for gall stones last Wednesday at the Sexton hospital is improving slowly.

SEEKS TO AVOID MOTOR MISHAPS

Mayor Irvin Instructs Police to See That Strictest Traffic Regulations Are Enforced

NEW TRAFFIC POSTS ARE UP

Motorists Complain They Can Not Be Seen at Night When Street Lights Are Off

That strictest traffic regulations are to be enforced throughout the city, following the installment of traffic posts on the main thoroughfare of the city as well as the residence district, was voiced today by Mayor A. B. Irvin.

Now that the automobile season is in full swing and the danger of accidents grows more probable every week with numerous cars passing through and about the city, the police have been instructed to see that motorists observe every regulation of the instructions, in an effort to minimize the number of accidents from this cause.

"It will be too late to enforce the traffic rules after some tragedy has occurred within the city because of careless drivers and the non-observance of traffic rules," declared Mayor Irvin today, in issuing the instructions to the police authorities. The city executive stated that there would be no danger of accidents, no matter how great the crowd of motorists in the city became, if corner traffic rules were observed and the "drive right" signals noticed. The turns about the traffic posts are to be made slowly and especially in Main street, where the posts have been installed up to Eleventh street, drivers are able to make the turns by slow driving, Mayor Irvin points out.

The mayor is determined that rules be enforced and unless motorists take the matter seriously and observe the law, they will not be dealt with leniently, he says.

Motorists have complained about the new traffic posts in North Main street, saying that they can not be seen at night when the street lights are not lit. They declare that there should be lights on the posts or that the street lights at corners where the posts are situated should never be turned off. It is said that some automobiles have barely missed running into the posts at night.

MRS. ANN BOWLES IN A SERIOUS ACCIDENT

Aged Milroy Woman Barely Escapes When Machine, Backing Down Hill, Lodges Against Tree.

BRAKES REFUSE TO CATCH

Mrs. Ann Bowles, 97, of Milroy, the oldest known member of the Red Cross in Indiana, escaped serious injuries in an automobile accident which occurred near the Union church, in the southern part of the county, Sunday evening.

The car was being driven by Harmony Parsons of Milroy, who while ascending a steep hill, attempted to change gears. The gears refused to catch and the machine started down the hill and crashed against a tree which prevented it from plunging over a twenty foot embankment. Although Mrs. Bowles and her niece, Mrs. Anne Thompson, also of Milroy, who was in the car were bruised badly and suffered a nervous shock, no serious injuries resulted.

GEN. MORRISON ASSIGNED

Washington, June 18.—Maj. Gen. Morrison was today assigned to the command of the western department with headquarters in San Francisco, to relieve General Treat who goes to Italy as head of the American military mission.

TWO VOLUNTARY INDUCTION CALLS

Army Board to List Two Men For Training at Richmond and Three to be Sent to Valparaiso

PERIOD CLOSES ON FRIDAY

Will Entrain For Both Schools July 1 to be Instructed as General And Auto Mechanics

The local army board has been notified of two voluntary induction calls for mechanics, the quota for the county on both calls being five each, two to be sent to Richmond, Ind., and three to Valparaiso, Ind.

As in the case of other voluntary induction, the board is given the opportunity of listing class one registrants to fill the call, and if enough are not listed, to select the required number. In these two instances, registrants may be listed for voluntary induction up to and including Friday, but if the required number is not obtained, they will be selected. Both quotas will entrain July 1.

The qualifications on both calls are that the registrants shall be white and physically qualified for general military service; also that they shall be grammar school graduates who have some experience along mechanical lines and some aptitude for mechanical work.

Indiana will send 103 to the Richmond training school where the registrants are to report to the commanding officer at the Richmond Commercial club for instructions in auto mechanics. This state will send five hundred to Valparaiso, where registrants will be instructed as general mechanics. Concerning the value of the two calls this paragraph says:

"Men selected for this service will receive a course of training at government expense fitting them to serve in army positions both at the front and behind the lines. Men taking this course will receive thorough instruction which will be of great personal value in working their way ahead both in the army and in civil life. The men will be assigned during the course to that kind of mechanical training for which greatest need exists at the time of the call. At the end of the course they will be assigned to various branches of the service in accordance with the needs of the army. They are to receive no assurance of an assignment to any particular branch of the service. These are exceptional opportunities for exceptional, energetic men. Qualified registrants should be urged to present themselves to local boards for voluntary induction."

Each man must carry with him at least two suits of underclothing, one suit of outer clothing in good condition, a sweater, a stout pair of shoes, three extra pairs of socks, and two bath towels, as he will be kept in civilian clothing during the first three weeks until he can be supplied with a uniform and other clothing.

O'LEARY ARRAIGNED TODAY

Pleads Not Guilty to Charge of Treason on Arrival in New York

(By United Press.)

New York, June 18.—Jeremiah O'Leary, charged with treason, was arraigned before Judge Hand shortly after his arrival today from Portland, Ore., in the custody of agents of the department of justice. He pleaded not guilty and was sent to jail to await trial. When asked by Judge Hand if he had any request to make, O'Leary replied that he might wish the court to aid him in securing counsel. He said he realized that attorneys to defend men charged with so serious an offense are difficult to get.

Enter One 3/4-Ton Reo— a Fleet Is Sure to Follow

IT IS INTERESTING to look over the records of Reo Sales and to note how great is the percentage of re-orders.

WE FIND that if we can get just one Reo "Speed Wagon" in service with a big concern—manufacturer, wholesaler, jobber, trucking concern or chain of stores—more orders are sure to follow.

ALWAYS ON THE JOB, that Reo is our best representative—our best salesman.

WITH ONE AS A WEDGE it is a certainty that from time to time others will follow till, by a process of elimination—the survival of the fittest—the entire fleet will consist of Reos.

WE COULD NAME several big concerns that, as a starter, put on one Reo and one each of several other makes.

IN TWO OR THREE YEARS we find they have gradually gotten rid of all others and now buy Reos exclusively to supplement the fleet.

IF YOU KEEP BOOKS—if you keep close tab not only on the gasoline and oil and tire consumption; but also on the stoppages and delays; the adjustments and repairs—

REO WILL WIN OUT every time on the figures there shown.

DEPENDABILITY is a Reo attribute; Stoppages and delays are almost unknown.

AND LOW UPKEEP is the logical result of the same sound engineering and sterling quality that makes Reos reliable.

WE'LL GLADLY SHOW YOU facts and figures and photographs of great fleets of Reos now in service of many big concerns. Practically every one started with a single 3/4-ton Reo.

WE SOLD THAT ONE by promises—the balance of the fleet were bought on knowledge of performance and low up-keep of that initial Reo.

REGISTRATION RATE IS NOT MAINTAINED

Voters Are Falling Behind on General Average and Will Have to Speed up For All to Qualify

MUST AVERAGE 32 A DAY NOW

Rush county voters will have to speed up if they all register by the close of the registration period so that they may vote in the election next November.

Clerks of the registration board have figured out that voters registered last week at the rate of 12.3 per day, seventy-four having registered during the week. This is far below the average which must be maintained because they are ninety-five days left in which to register and it is conservatively estimated that there are yet 3,044 voters yet to register, which means an average of thirty-two per day must be maintained.

The general average for the whole period of 154 days must be 33.7 a day, estimating the number of voters in the county at 5,500. The board has been in session fifty-nine days and 2,456 voters have registered, which is an average of 41.6 a day. This includes about four hundred voters who registered primary election day.

JAMES O'DELL SUCCEUMBS

Dies at Craigmont Where he Was Taken Two Weeks Ago

News of the death of James O'Dell, age sixty-one years, at Craigmont, North Madison, Ind., has been received here and the body will arrive here this evening and be taken to the home of the deceased's son, Marion, in Circleville. Mr. O'Dell was taken to the hospital about two weeks ago, his mind having been affected after he survived a stroke of paralysis. He is survived by the widow and two sons, Marion and Ben of Spiceland.

DEMOCRATS GOING TO STATE CONVENTION

County Delegation and Others Attend Preliminary Meetings in Indianapolis Today

DELEGATES TO MEET TONIGHT

Many democrats went to Indianapolis today to attend the meetings preliminary to the state convention which will be held tomorrow. W. S. Oneal, county chairman, is a member of the reception committee for Vice President Marshall, who will act as temporary chairman. The delegates will meet by districts this evening and effect their organizations. The Rush county delegation which will sit in the convention is composed of the following:

Poser township, Elihu Price; Walker, S. L. Hodges; Orange, Ed Barlow; Anderson, Samuel T. Overleese; Rushville, Alfred Williamson and L. L. Allen; Jackson, Frank E. Sample; Center, Walter Bitner; Washington, Ralph H. Miles; Union, Edgar Wilson; Noble, Henry P. Metenlf; Richland, Oliver J. Cook.

VISITING KNIGHTS ENTERTAINED HERE

Councils at Connersville, Greensburg and Shelbyville Represented at K. of C. Meeting

SUPPORT WAR RELIEF URGED

Representatives of the Connersville, Greensburg and Shelbyville councils, Knights of Columbus, were present at the meeting of the local council last night when they entertained delegations from the surrounding cities.

There was a good attendance both of members of the entertaining council and the visitors. Short talks were delivered by several of the visitors. The address of the evening, however, was a talk by the Rev. Father Francis of Greensburg on Knighthood and the War, in which the speaker urged the members of every individual council to lend assistance to the war relief movements of the Knights of Columbus as well as to the various other organizations banded together for the same purpose.

CENTER TOWNSHIP PIG CLUB IS BIG SUCCESS

Honors Now Lie with Kenneth Gilson, Who Has Porker Which Has Gained Two Pounds Daily

POUND A DAY IS GOOD RECORD

The pig club which was started some time ago in Center township by Marion Detrick, county agent, has proven a success and the gains among the pigs have been most remarkable.

The club was started some time ago among the boys of the township and so far the honors for the most successful pig raising has gone to Kenneth Gilson, son of Mr. and Mrs. John Gilson, who has one pig which he has entered, making a gain of two pounds daily.

This is a most remarkable record, according to Mr. Detrick, who stated that a gain of two hundred pounds in 180 days was considered excellent and this gain entails an approximate gain of one pound per day.

Five boys are members of the Center township club and during the past two months have been vying with each other in the pig raising contest. The prize pig which is owned by Kenneth Gilson, has shown a gain of 21 pounds in ten days.

—Theodore Holden, Mr. and Mrs. Frank Holden and family Mr. and Mrs. Jess Barnard and family, Mr. and Mrs. Roy Coon and Mrs. Ellen Rydener motored to Greenfield Sunday and spent the day with Mr. and Mrs. Charles Martin. In the evening the entire party motored to Fort Harrison.

Sensible Economy

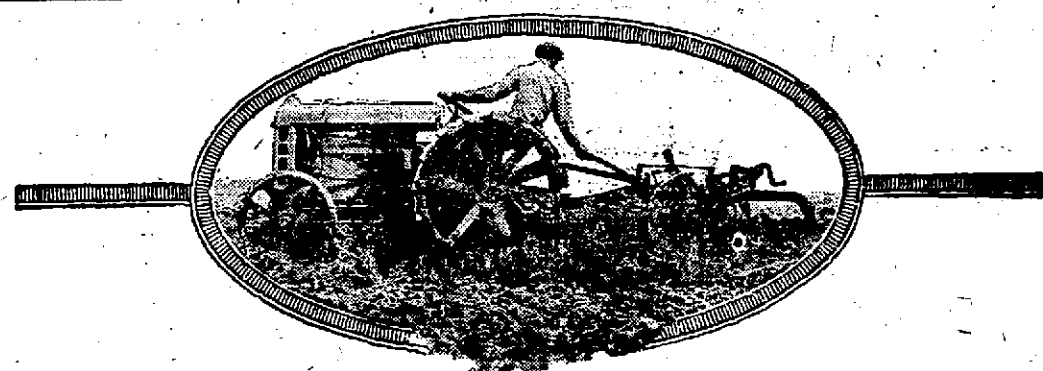

Uncle Sam has proclaimed sensible economy to be the **BUY-WORD** of every woman in the country. The women of America will support his sensible movement by making with their own hands the dresses their children wear.

The women of the United States have taken up the needle and have turned seamstresses. It is the height of economy to buy

LaPorte Dress Fabrics

for the little ones. Not only can you secure an individuality of design, coloring and material, but you receive double value in service, durability and quality. Our line of Gingham, Chambrays, Knockabout Suitings, and Beach Cloths are unexcelled for tots' wear. It is with a sense of assurance that we unhesitatingly recommend this line to the economical and discriminating purchaser and we invite your early inspection of this varied, tasty and attractive assortment.

 RUSHVILLE INDIANA

The Fordson Tractor

The Fordson tractor, manufactured by Henry Ford & Son at Dearborn, Michigan, is here.

Hundreds of farm owners in this community will be interested in this announcement—in knowing that Fordson tractors are ready for distribution.

The urgent need for greater production and the vital necessity of employing man-saving machinery in farm work is apparent to everyone. Remembering these immense tasks ahead, the coming of the Fordson is of importance to every farm owner at this time.

The Oliver No. 7—the Plow for the Fordson

"We appreciate the co-operation the Oliver Chilled Plow Works have given us in designing the proper plow for the Fordson tractor."

"We know that with the Oliver No. 7 plow the Fordson will work to the very best advantage."

[Signed] Henry Ford & Son

Oliver No. 7 has been built for the Fordson.

Oliver No. 7 is strictly a one-man machine. A trip lever right at the operator's hand raises or lowers the bottoms. An even depth adjustment lever is right at hand, too.

You will appreciate the high clearance of plows and beams because they save time and annoyance—just as the rake between bottoms prevents clogging with trash and makes every second of operating time count in plowed ground.

The Oliver No. 7 embodies principles of plow construction founded on sixty years of making plows, of intensive study of every existing soil condition—and constant attention to the plow requirements of the tractor since the tractor industry began.

Come in and see this complete outfit—the Fordson and the Oliver No. 7 Plow.

Take Eatonic and Laugh At Stomach Troubles

H. L. Kramer, the man who originated Cascarets, has discovered a sure, safe, quick acting relief for bad stomachs.

You can eat anything you like now and digest it in co. fort, for stomach ease is positively assured if you take an EATONIC tablet or two occasionally after each meal.

EATONIC acts directly with the food as it enters the stomach. It quickly checks any tendency toward too much acid and enables the food to pass from the stomach into the bowel in a sweetened condition, and thus prevents the formation of sour, distressing gases that upset digestion and cause a bloated, dull, lumpy feeling, food repeating, and all kinds of stomach miseries.

EATONIC enables you to eat your fill and laugh at indigestion, dyspepsia, heartburn, "sour stomach" and at the same time you get full strength out of your food.

Kramer says: "EATONIC should be in every home, for use after meals. An EATONIC tablet will aid easy digestion and assimilation—your food can be thoroughly enjoyed without the slightest danger of misery from acid stomach. I strongly advise every one to take EATONIC after meals. To correct bad stomachs and keep them in perfect condition, it is a wonderful discovery."

If EATONIC fails to give you prompt stomach relief, your money will be cheerfully refunded by your druggist; 50c buys a large box at any drug store.

Worst May Be Coming

The popular nut sundae has disappeared; likewise other special drinks which require sugar syrups, but this is not so terrible if the worst is not yet coming. Direction has been given county administrators by the federal food administration for Indiana that soda fountain proprietors and candy manufacturers are to be advised that there is no further guarantee of their sugar requirements, and for the less essentials there is strong probability of their being a complete prohibition soon. The use of glucose and corn syrups is recommended as a sugar substitute, but on no account, the Food Administration says, will saccharine or any artificial sweetener be permitted. "Saccharine is a drug and not a food. Its injurious effects on the system are far greater than any advantages that might be gained by its use," says the bulletin.

Reiterating the food administration's promise to housewives that they shall have ample sugar for their canning needs, the Food administration urges all concerned to insist upon the 3 pound per capita per month rationing, and the elimination of all temporary permits or orders to manufacturers who may need sugar to tide them over a critical period. "All manufacturers have had ample time to file statements with this office," the bulletin says, "and secure necessary sugar certificates. We can not assume the burden of carrying the load imposed by their negligence."

Between Two Foes

Last month, according to documents captured in German trenches there was a meeting at Heidelberg of scientists and physicians from all parts of Germany, to discuss public health questions. As a result, resolutions were sent to the kaiser, the chancellor and the reichstag, demanding immediate governmental action.

It was set forth that the death rate among women and children had risen to 68 per thousand, and was still rising; that sanitary conditions everywhere were bad, and getting worse; that the civilian population was so weakened by under-nourishment and privations of all sorts that it could not offer normal resistance to disease; that for this reason the ordinary spring epidemics had taken a terrible toll this year; that as a direct result of poor food, there was a great prevalence of abscesses among war-industry workers, and that tuberculosis was rampant.

That is the situation behind the German armies. The Kaiser's troops cannot help knowing something about it. They are fighting a battle of desperation, with a relentless foe

in front and starvation and disease in the rear.

Poor, driven cattle! How much longer will they endure it!

Extending the Organization

Every church and every lodge in Indiana has been asked to appoint a deputy food administrator. The official bulletin to this effect from Dr. Harry E. Barnard, federal food administrator for Indiana, states that the purpose is to make it possible to communicate promptly and directly to a greater number of patriotic citizens in all matters pertaining to food regulation. The deputies assume responsibility for the distribution of messages and literature from the food administration.

The church deputy is asked to prepare a list of all ministers in the county, including all denominations, and the number of copies of all pamphlets and circulars required to reach all the parishioners of each. The lodge deputy will act in a similar capacity by reporting the representatives of affiliated organizations willing to assume a share of the work.

The sea wolves forgot their special orders to be excessively polite and fell back toward old habits when they left the women and children of the Carolina in open boats 150 miles from land after preventing the use of the wireless to summon help.

The congressman who predicts that by next January we shall be turning out 300,000 tons of shipping monthly is a very conservative soul. According to the accounts, the yards are very nearly if not actually doing that now.

King George has already released 550 men from the royal household for service at the front. Perhaps he could even spare a few more without being compelled to pass the queen a cup of tea with his own hand.

The energetic Schwab is not content merely to speed up a great work but announces that "the Kaiser is due for the damndest licking anyone ever got."

In bombing hospitals and killing doctors, nurses and patients, the German airmen are unapproached and literally have no rivals.

"God has granted us a splendid victory," once more declares the unspeakable Hohenzollern. In other words, "Gott mit uns and our hellish Schrecklichkeit."

As between taxes and German domination, there is nothing to do but welcome the former with open arms.

County News

Arlington

Mr. and Mrs. Sampson returned Sunday from Camp Taylor, Ky., where they have been spending a few days with their son Oakley, who is in training there.

State Evangelist G. I. Hoover preached at the Christian church here Sunday morning.

Children's Day exercises were held at the Christian church here Sunday night before a large audience. The choir assisted in the musical features of the program and a patriotic touch was given the entertainment by flag exercises and the singing of patriotic songs.

Charles Sullivan, who lives northwest of Arlington, is suffering with a broken thumb, which he sustained while trying to stop a runaway horse, Sunday.

A festival will be given in the basement of the Christian church Saturday night, June 22, when the local band will furnish the music, for the occasion.

Amusements

Last Appearance "Blue Bird" The last opportunity to see "The Blue Bird," Maeterlinck's spectacular production, will be tonight when it will be run for the last time at the Princess theater. The picture has attracted large crowds during its showing here since yesterday afternoon. Norma Talmage is coming tomorrow in "The Moth," a superb picture, and on Friday night Douglas Fairbanks will be here in his latest success "Mr. Fix-it."

Oldsmobile Eight Cylinder Touring Car

The Eight Cylinder Oldsmobile occupies distinctly a place of its own in the ranks of motor cars. Attractive in design, remarkable for completeness of appointments and refinement of finish, it combines unusual power with ease of operation and economy of maintenance. These with many more good qualities assures the owner satisfaction far out of proportion to the moderate investment. Such a car will be a source of happiness, service and pride for many years.

C. H. (Nick) TOMPKINS

Doctor said, "Bio-feren had done wonders for her."

Case 1724—School teacher; Residence—Kentucky; severe operation; left her weak, anemic, nervous; low vitality. Physician recommended Bio-feren. Two weeks' treatment showed remarkable improvement. Doctor reported, "Bio-feren had done wonders for her."

Another case—Pennsylvania; reports: "I have taken about one-half of the Bio-feren tablets and must confess that I feel like new."

A Kentuckian woman says: "I have taken Bio-feren regularly and feel much benefited. I can use my arms much better. However, can not get my hands to my head sufficiently to comb my hair, but I feel that I will soon be able to do that."

You want the vigorous health and ruddy beauty that is dependent on strength, nerves and red blood. Everybody does. Read these reports above, again. You, too, if you are dragged down in health and strength because of overwork, worry, nerves, and similar causes can rebuild your health and strength with Bio-feren. It is not a stimulant. It is a builder—a builder of better health.

Bio-feren contains some of the best ingredients known to the medical world, and is indicated for the treatment of run-down conditions due to overwork, worry, rheumatism, melancholia, nervous debility, debility following infectious diseases, convalescence from acute fevers, etc.

There is no secret in the matter about Bio-feren. Every package shows the elements of its composition. And your physician should be able to tell you all about it. And don't forget that Bio-feren is not only an excellent tonic that you will return the energy, health and vigor that you need, but it is also a powerful blood purifier. You can get it at \$1.00 for a large package. Your druggist can supply you. Or we will send it direct from our factory of \$1.00 per package for \$1.00. Should you have any trouble in securing it, the National Wholesale Company, Managers, Toledo, Cincinnati, Ohio.

DON'T HOLD A DIME

So close to your eye that it hides the dollar beyond. A little saving now by using cheap paint and hiring unskilled labor will cost you many times as much because of inferior durability and failure to protect your house from decay.

AN AIR RAID

Continued From Page 1

south, I passed through an arch in the Louvre and out into the big promenade along the Seine River. My friend and I had been through two raids and had adopted a certain stone bench as our rendezvous. Fullerton was there ahead of me. "This will be a good one," was his blasé greeting.

The anti-air craft guns were going in the extreme north of the city. Between shells we could hear the hum of the French machines circling about overhead looking for the Huns. This occasional humming reminded me of being in the neighborhood of an aroused bumble-bee's nest.

All at once the 75's cut loose on the south and west and much closer in than the previous guns. The heavy boom of the latter gave the earth a slight jar. We could hear the shells rushing upward. They sounded like skyrocketing going up, but when bursting, instead of the brilliant light, there was only a wicked red flash, followed in a few seconds by a crash like the shooting of an anvil.

Now we noticed something else. The balloons were pulled down. These balloons are nick-named "sausages," but are shaped much like the body of an elephant with a very short trunk. I was informed that they are sent up with the hope that the wire cables which hold them might entangle a hostile machine. As the shelling increased, they were pulled down, evidently for the reason that flying shrapnel might puncture them, or they might entangle one of their own aviators. These balloons are considered by the military men, a big joke.

Shortly after this we heard not far to the southeast the hum of a machine and the swish of a falling bomb. This, much like the sound of a long whip cutting the air, was followed by a tremble of the earth and a terrific explosion below the Patis-Orleans station. It was a rumbling roar like a heavy blast in a stone quarry. When we were able to hear the invader again after the explosion, from the hum it seemed that the machine had traveled toward us and was now directly overhead. My morale was gone.

Most sincerely I wished that I was not in a cellar, but down deep in a coal mine, or else back in Indiana. I was ready to beat it, but could not decide in what direction, for I might be running right under a falling bomb. So I stood holding my breath for the expected sound of a long whip cutting the air, that unmistakable warning of a dropping bomb. The machine passed on east. I finally took a good long breath and looked up.

And now we saw a real show. A long narrow cloud stretched from north to south across the eastern part of the city. Suddenly the glare of three searchlights from Eiffel's tower shot up, upon it. We knew the "Rat" had concealed himself in there. The lights were at first wide and dim, but contracted into penetrating spots not more than three or four feet in diameter. These spots traveled back and forth in the cloud hunting the raider.

Hell broke loose. The shelling of the nearest 75's concentrated in this area, until the harmless cloud seemed charged with crackling electricity. The lights of the French machines prowled about a safe distance from its outskirts.

Presently a rocket was let out from one of the French planes. The searchlights went out and the shelling ceased. The lights of the French machines began to disappear. Evidently the Boche had climbed up out of the cloud, for he could not have escaped from its

DRAFTS SUMMER CAMPAIGN PLANS

Democratic Central Committeemen Arrange for Early Maneuvering in State Politics Today

FORERUNNER OF CONVENTION

Platform Committeemen and Other Representatives in Session—Vice President Arrives

Indianapolis, Ind., June 18.—Plans for the democratic campaign this summer were drafted today at a meeting of the state central committee congressional candidates and representatives of the national party. The meeting was a forerunner of the democratic convention here tomorrow. Practically all candidates and delegates were on hand today for the meeting.

The platform committee and other committees will meet tonight following sessions of the district delegations.

W. R. Hollister, acting chairman of the democratic national committee, and Scott Ferris, chairman of the congressional campaign committee, arrived from Washington to attend the state committee's session this afternoon.

Vice President Marshall, who will be temporary chairman, also was expected this afternoon.

Herman L. Conter of Decatur seemed to have a clear field for secretary of state following the refusal of Charles Orbison of Indianapolis to enter the race.

James J. Moran of Portland also will likely be unopposed for nomination for judge of the supreme bench for the place now held by Judge W. L. Townsend of Ft. Wayne. Townsend was appointed by Gov. Goodrich and is a candidate for reelection on the republican ticket.

John C. McNutt, Martinsville, and Simon L. Vandiver, Princeton, are staging a hot fight for the nomination for the supreme court for the place now held by Judge Spencer of Evansville.

Ervin B. Stotsenburg of New Albany will probably be chosen candidate for attorney general.

Other candidates are:

Treasurer—John B. McCarthy, Kempton; C. D. Henke, Petersburg and Thomas O'Connor, Monticello.

Auditor—James Hauck and Thomas Meeker, Indianapolis; William P. Gray, Covington and Edward Simons of Hammond.

Geologist Edward Barrett, Plainfield.

Judge of the appellate court—Milton B. Hottel, Salem; Joseph Ibach, Hammond; Edward Felt, Indianapolis; E. F. McCabe, Williamsport and Hugh Wickens, Greensburg (Four to be nominated.)

Clerk of the Supreme court—Harry Grube, South Bend; Myron King, Indianapolis; Sam Calloway, Monticello.

Superintendent of public instruction—Samuel L. Scott, Jeffersonville; T. F. Fitzgibbon, Columbus and John W. Cravens, registrar of Indiana university.

In the quietness that followed, we could hear the tat-tat-tat of small guns on the planes, which from the great heights sounded like a wood-pecker on a hollow tree.

We forgot about time in watching this combat. The shooting died away. Dawn was just beginning to break, when the "all clear" horn sounded. Before going back to the hotel, I took advantage of some shrubbery to reverse my shirt which in my hasty toilet at one o'clock I had got on backward.

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens so Naturally Nobody can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mossy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with "Wyeth's Sage and Sulphur Compound," is that it besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

HE NOW LAUGHS AT THE MEN AT THE TABLE.

This Man Was Always Ill at Ease While Waiting for His Dinner, Until—Pepsinco.

He would order a few little things and see visions of pains, nausea, misery and everything but enjoyment when they were put before him. Much or little never failed to leave the same miserable, disagreeable, sick, headachy feeling. He had to eat and suffered the consequences.

He thought he was doomed to eternal chronic stomach trouble. He doctored, used many remedies, but no help.

A stranger, a good Samaritan, saw his condition; asked him the reason; offered him Pepsinco, and now a happy, smiling diner awaits the steaming dishes.

If your stomach bothers; if your food sours or disagrees with you; if pains follow a meal and sick headache is a rule, stop at the drug store and get a small package of Pepsinco now today. It is a positive remedy for bad stomachs.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish tinge which is not unpleasant. Drink this phosphate water every morning to rid your system of those vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soon as hot water and limestone phosphate, everlasting and purifying limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.

Rushville, Indiana.
